

From Dr. Richard Pettinger (UCL) – London Global University

August 25th 2011.

Dear Majid,

Very many thanks for being in touch - this is a huge pleasure and privilege and a great honour. You have a colossal range of achievements.

We will order your books here and it will be a very great pleasure to read them. We have here a very heavily western/UK/USA perspective on management and we have to address this because it is very limiting for us and for our students and for our companies and organisations also.

Hasna Chakir has been a very great friend over the years and it is very kind that she has put you in touch.

With very best wishes; and if there is anything that we can ever do for you or send to you then do please let us know and we will do it.

Dr. Richard Pettinger (UCLA) – Professor - Management Studies - London Global University

August 25th 2011.

Note - He is the Author of many books in Management at Global University UK (UCLA).

2 - I will get the books ordered next week (it is a holiday this weekend in England) and will let you know how we do get on.

With very best wishes - and again if there is anything that we can do from here, then do please let us know.

All the best – Richard.

3 – To Hasna Chakir from Richard Pettinger.

3.1. – What a nice man your Majid is – he is a real gentleman! We will get his works in here and add them to our reading lists – it will be very good for us to have authoritative very good stuff like his from elsewhere in the world to add to our Management fields and references – and not just UK and USA.

3-2 – This guy is a major star and I am a humble hack – and we will order some of his books for sure and I will email to make contact - I hope he does not mind.

Dear Majid,

The University expresses its many thanks for being in touch - and is a huge pleasure and privilege and a great honour. You have a brilliant and star colossal range of achievements - and must be congratulated.

We will order your books here and it will be a very great pleasure to read them. We have here a very heavily Western/UK/USA perspective on management and we have to address this because it is very limiting for us and for our students and for our companies and organisations also.

We will get your works in here and add them to our Reference Reading lists – it will be very good for us to have such authoritative very good stuff like this from elsewhere in the world to add to our Management fields and references – and not just from UK and USA.

Dr. Majid,

I read all the attachments and I must say, it was an eye opening for me. All i can say is that we all have been victimised in one way or another, I chose not to dwell on the past as it only brings back the heartaches and pain.

So my suggestion to you and as you have said it yourself is, let it go and let Allah do the rest. Whatever i get from my Pension (PDO) IS NOT MUCH but at least I have not reached a situation that I ask others for help. I make do of what little i have. Take care and keep your prayers.

Suleiman Al Khussaibi – 20.10.2011 Gmail
