Writing is a Passion of Writers, Authors and Columnists – and will not die even after the Author's death – because his works will always be there to be viewed and be read by future generations! As we have seen books still doing rounds by Authors long time gone centuries ago!

Thus those 'acting as God' to stop and prevent your writings are just deluding themselves more than anybody else! Just keep praying for them to return to the right path and ways – Ameen – Amen – and for Good Karma!

**For Bad Karma says** – Those who cause you hurt and pain – do not go for revenge – because God will let you watch as they 'screw up' in life! The East Africans also say – The man who goes up the ladder will come down sooner or later! Or as the Chinese say – if you are going to dig a grave for your enemy – dig two graves – and one keep for yourself!

**Fan (Omani)** – I think your reaction to the newspaper was to the point. My only advice is that don't allow the other party to get the best of you. Don't sound emotional. Just give them your piece of mind and move on...

**Lady Fan (Omani)** - Well , its one's duty to speak up when things don't go well, if I were you I would have kept quiet cause its just like talking to a wall. It's not heard and nobody cares. It's just losing your face over and over again and nobody cares. I will never agree with you the way you humiliate yourself. You are a talented man you deserve the best of the respect. Be calm Majid it won't harm you and Allah sees everything. Be patient. If one door closes the other will open. Believe me.

**Fan (Omani)** - Spot on. I think there is a lot of hypocrisy in our society. You call a spade a spade and that's quite admirable. Very few people have the guts to go openly public in expressing a critical opinion. Did you get any response?

Dear Mr. Majid, We strongly support your endeavor. Remember, the best writers, noble people, celebrities, scientists, etc., were at first neglected by their own people; that is in West during the past centuries. But; today it all changed. So keep up, never give up, you're a very great writer, never let any negative people or pessimistic people put you down, the most you succeed, the more their feel ashamed of their wrong acts.

Finally, the Universe will respond to you abundantly. Keep up with those who are attracted by you, keep some distance to those who neglect you.

Keep looking at your achievements most whenever you get upset of a specific incident. You're great in the eyes of many who deserve to see your smiles. Cheers!!!

**Sir - We are with you always!**

Yesterday night a group of us good getting together friends were having a meal at this Arabian Restaurant in Ghobrah and the subject starting moved to your columns articles. And your call about more Omanis to be needed represented in the especially English press and media as it is now being controlling and dominated by Indian people mainly and also some British peoples.

You also called for more stronger quality powering Omani Managers in the Press and media. Believe me Sir that people mistake us to be not knowing and not smart people and they can fool and play with us. But if they cannot learn than they will never learn in future. We are not stupid peoples. We aware and knowing too.

So Ustaadh please rest now. You have said it but they ignore you and not listen. You have done your job and duty as few Omanis that really care and feel. You take rest because you are now done and take rest Sir. Look after family only now.

Like you always tell us to take care! Ever admirer and fan to you Sir. We will never forget you till end of us.

**Please forgive my English. Omani (Young) Fan...**

Dear Ustaadh Majid;

Thank you about the information about your new Road Safety book Arabic – Behind The Wheel!

- [www.createspace.com/4875352](http://www.createspace.com/4875352) خلف عجلة القيادة

I would like to express my appreciation of your kind efforts to deliver to my office your two Arab Management books – Psychology of Arab Management Thinking! - [www.trafford.com/08-0889](http://www.trafford.com/08-0889) - and **A Cry For Help!** –

<http://bookstore.trafford.com/Products/SKU-000142695/A-Cry-For-Help.aspx> .

More importantly for writing these books and letting the rest of us in the country and the world the issues and aspects that have been troubling you for such a long time and your feelings that you needed to write these books as information to the rest and detailing your own personal experiences and exposures over 35 years and most of it being in PDO of 25 years services and as a Human Resources Management Consultant for later years.

I am pleased to inform you that I have now read both the books and am lost in words of where to start, pause or end! You have done a brilliant work and your efforts need to be recommended and to be appreciated.

I have recommended your books to my colleagues as Essential Reading for us in The Leadership. I personally think this far outweighs any monetary and other awards that you may have received so far.

**I talked to my USA Publishers about our discussions yesterday on my books. Here is their response.**

### **Quote**

**Dear Mr. Suleimany**

Thanks for your email on the points raised.

All your books including even the new ones have been independently reviewed by Books Subjects Experts including Eric Hoffer establishment and that includes also Independent Assessors in Kindle.

The feedback were all sent to you and mainly being highly commendable and very positive with only some highlighters here and there. That is the reason why your Psychology Book had won The USA Golden Seal of Literary Excellence Award for 2013.

It is true that the Assessments and Reviews are found outside the book but we have a Policy of publishing your book within 6 to 8 weeks once full PDF works have been produced to us.

We do not wait for Assessments Reviews etc. to be included in the books because in that way we allow the Reader to form his own independent opinions before reading what others are thinking about the book. This is in its best format Literary Excellency and Freedom to the Reader. The quoted examples in your country are perhaps because of too much censoring and editing bureaucracy and thus the need to include in the books before publishing.

Mr. Suleimany, you know well with 12 books that is not how we operate as Publishers and for USA books publishing. We do not have this requirement in USA.

You have achieved a great deal and have done great works and you should hold your head high and brim with excitement and pride with your achievements.

Please do not let anyone make you feel down or small because as a Writer you cannot please everyone and there will always be some dead set against your books from the start for their own personal or other reasons. Especially as your books cover real core hard stuff that many are scared stiff to touch even by a long pole!

**Have A Great Day!**

Dear Colleagues,

I have read Majid's Road Safety book and it is comprehensive with real cases of accidents. I used the book to train team members on accident investigations, however; it is very useful to prevent ourselves from falling into the same situations.

Recently; It came to my knowledge that a local is burnt while splashing petrol on dry wood fire in order to improve burning but unfortunately he got burnt and currently at burns ward. How many cases had and have occurred and why don't we learn? Mostly, we do not read!
